Total Relative Value **\$4.01/cwt**
Relative Management Value **\$3.31/cwt**
Relative Genetic Value **\$0.70/cwt**

Relative Genetic Value: Predicted difference in value due to genetics between the calves being evaluated and the average Angus calves of the same sex, starting weight and management conditions

Relative Management Value: Predicted difference in value due to management between the calves being evaluated and those same calves under the assumption of an industry average 60% BRD vaccinated and 60% weaned for 30 days or greater

Total Relative Value: A combination of Relative Genetic Value and Relative Management Value
